## Professional Summary

Java Full Stack Developer with hands-on experience building AI-powered web applications using Spring Boot, React, and Gemini AI. Skilled in REST API development, MySQL database design, and Spring Security. Completed internship at Sanyu Infotech delivering full-stack features. Seeking Java Developer roles to build scalable, production-ready applications.

## Education

**Dr.D.Y.Patil Prathistans College Of Engineering Salokhenager, Kolhapur**

**Sep.2021 – May 2025**

*Bachelor of Technology in Computer Science - 8.09 GPA*

*Kolhapur, Maharastra*

## Relevant Coursework

- Data Structures & Algorithm
- Database Management
- Web Development
- Computer Network

## Experience

**Sanyu Infotech Pvt Ltd Intern(Remote)**

**Feb 2025-Aug 2025**

- Developed Java backend modules and REST APIs for scalable applications.
- Integrated React frontend components with Java/Spring Boot backend services.
- Worked with HTML, CSS, JavaScript, React, and MySQL to build full-stack features.

## Projects

**Resume Analyzer** | Java, Spring Boot, React, MySQL | <https://github.com/2910shri/Resume-Analyzer>

- Developed an AI-powered Resume Analyzer to automate resume screening and candidate evaluation.
- Extracted skills, education, and keywords from uploaded resumes and generated match scores.
- Built REST APIs using Spring Boot and integrated them with a React-based user interface.
- Implemented secure file upload and MySQL database management for resume processing.

**AI Content Generator** | Java, Spring Boot, React, MySQL, Gemini AI | <https://github.com/2910shri/ai-content-generator>

- Built an AI-powered content generation platform using Gemini AI for blogs, summaries, and captions.
- Developed backend services with Spring Boot and integrated AI APIs for content creation.
- Created a responsive React dashboard for generating, editing, and managing content.
- Implemented authentication and role-based access control using Spring Security.

**AI Interview Question Generator** | Java, Spring Boot, React, MySQL, Gemini AI | [https://github.com/2910shri/Interview\\_Question\\_Engine](https://github.com/2910shri/Interview_Question_Engine)

- Developed an AI-powered platform that generates role-specific interview questions using Gemini AI.
- Built backend APIs with Spring Boot to process user inputs and generate relevant technical and HR questions.
- Created a React-based user interface for selecting job roles and viewing generated questions.
- Integrated Gemini AI APIs and MySQL database to manage question generation and user data efficiently.

## Technical Skills

**Languages:** Java, C, HTML/CSS, JavaScript, SQL.

**Core Java:** OOP, Collections Framework, Exception Handling, Multithreading, JDBC.

**Developer Tools:** VS Code, Eclipse, IntelliJ IDEA, Postman, Git, GitHub.

**Frontend-Technologies:** HTML5, CSS3, Tailwind CSS, React.js.

**Backend-Technologies:** Spring Boot, Spring Security, Hibernate, JPA, RESTful APIs, Maven,JWT.

**Databases:** MySQL, SQL.

**Certifications** : Java Programming ( Basic to Advance) - Aptech solutions
